

Support the Parks, Receive a Pool Pass

All contributions of \$1000 or more will receive a season pass to the new aquatic center for 2024.

The City of Evansville and the Growing Our Parks Capital Campaign need you. And as a thank you for that help, the City will offer a free season pass to the new aquatic center for any contribution of \$1000 or more. The new pool will officially open in June 2024, and households offering this level of financial support will swim for free (a \$150+ value).

When the vision for upgrading Evansville's major parks came into focus, City leaders understood that a portion of the project required private donations to fully fund. Advisors recommended starting slow with fundraising efforts, building momentum, and then inviting the whole community to participate.

The campaign is gaining momentum rapidly. Several significant donations have already been received or are in the pipeline. Fundraising has already exceeded \$1,050,000, well past halfway to the \$1.7M needed to complete the park renovations. If the project exceeds the goal, additional amenities could be included - perhaps a basketball/pickleball court, for instance.

Work on the new aquatic center continues to move forward. As of May 25th, the west end of West Side Park was a flurry of activity, with attention centered on finishing the retention pond and continued work on the pool. The tub of the lap and diving area is complete. The lazy river is clearly defined, with concrete poured in some sections. Much of the eastern half of the park is done, now only waiting for the turf to fill in the baseball and soccer fields.

Donations have come in large and small increments - from individuals and families as well as area businesses and organizations. If you would like to contribute and lend your support for the new additions to Evansville's recreational infrastructure, please follow this link for further information:

<https://ci.evansville.wi.gov/donate>.

Donations via check are appreciated, though online contributions are also welcome (a 5% processing fee will be deducted from online donations).

The vision for Evansville's future is well along the path toward becoming a reality. Lend your support today.
